Download Workplace Apps

Stay Connected!

Download these two apps on your phone so you don't miss posts or chats!

WORKPLACE

The Workplace app allows you to stay connected to the latest corporate news, events and easily connect with your peers...all from your phone!

Benefits

- ▶ Stay connected without having to log in to Workplace every morning.
- ▶ Receive instant notifications when colleagues add posts or feedback to a group discussion
- ▶ Scroll through a streamlined version of the desktop newsfeed

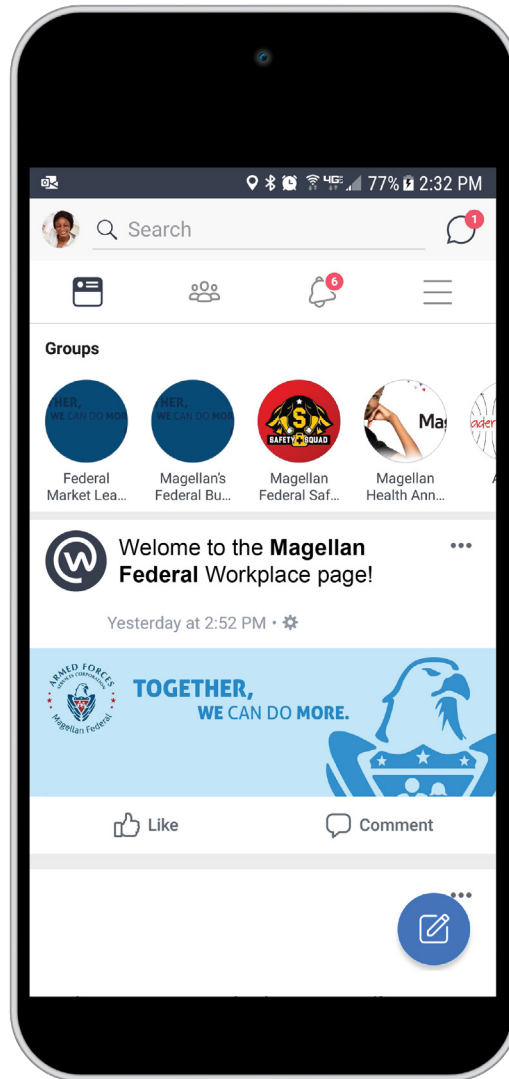

To Download

Search for **Workplace** on your device's app store and sign in using your Okta username and password.

Turn on your Notifications

Make sure to set your notifications on, under "Notification settings" (found within the top right three-lined icon). Make sure "Push" is on. This will allow you to get alerts outside of the app.

Keep up with Magellan Federal/ AFSC news, stay in touch and be in the loop!

There's an app for that!

WORKCHAT

The easiest way to chat with your colleagues. This is a separate app from the main Workplace app, allowing a streamlined focus on individual conversations.

Easily connect with colleagues!

Get instant notifications!

Benefits

- ▶ Receive notifications of new messages as soon as they happen
- ▶ Toggle through multiple conversations
- ▶ Easily connect with a specific colleague for a question that's too quick to be an email, and less urgent to be a phone call.
- ▶ Keep conversations organized in groups as well as individuals, allow you to easily find specific conversations for reference later on

To Download

Search for **Workchat** on your device's app store and sign in using your Okta username and password.
